

Parking lot USB exercise

Contents	<p>Write 2-3 sentences about the types of information found on this device.</p> <p><i>In the Parking Lot USB - there appears to be some personal information that shouldnt be made public. While investigating further, we can see that there are workfiles which contain PII of other people. These files should not be placed together with personal files.</i></p>
Attacker mindset	<p>Write 2-3 sentences about how this information could be used against Jorge or the hospital.</p> <p><i>The timesheet can provide a threat actor or attacker with information on other people and their work schedules. These types of information (Both Personal and Work) can be used against Jorge and coworkers. This could lead to impersonation... tricking others with PII</i></p>
Risk analysis	<p>Write 3 or 4 sentences describing technical, operational, or managerial controls that could mitigate these types of attacks:</p> <p><i>To mitigate damages or future incidents, we can implement promoting employee awareness about attacks that can be done when a suspicious USB drive is presented. Setting up routine antivirus scan is an operational control that can be implemented in case this device was infected with malicious code or virus. Disabling autoplay on company PCs could also help prevent a malicious USB from injecting.executing malicious code when the USB drive is plugged in.</i></p>
